GLBT RADIO NETWORK ® ANNOUNCES RELEASE OF IPHONE APPLICATION

ATLANTA, GA. - March 18, 2009— GLBT Radio Network announced today the release of its' much anticipated iPhone application for GayInternetRadioLive.com (G.I.R.L.). The application is now available as a free download to Apple Inc's 7 million U.S. iPhone users via Apple iTunes.

"This innovative technology allows iPhone listener's to take G.I.R.L. off the desktop and travel anywhere and everywhere they go across America. ", said Christopher Leonard, President and CEO of GLBT Radio Network.

The application is a very small .3MB in size with many features.

- 128 kbps stream for WiFi and a 64 kbps stream for 3G listening.
- No directories to search.
- One "tap" access to audio streams.
- Artist and Song title information displayed at the top of the screen.
- Instant feedback buttons to call the request lines or email the station.

In addition, the application provides powerful branding opportunities with the use of colorful banner advertising. Unique to this application is the ability to link to advertiser websites without interrupting the music stream.
